This is our manufacturing sizing chart. The most important measurement is the “½ chest across” – this is how wide the shirt is when laid flat, from armpit to armpit.

Please note that women’s sizing, especially the women’s small and medium, does run small. We recommend you may need to go up a size or two for the women’s sizes, or use the men’s/unisex sizing instead. Our men’s/unisex sizing is designed for a looser fit like a traditional Hawaiian shirt.

There is a \$5 surcharge for sizes 2XL – 4 XL.

Please contact us with any questions or concerns, or to request your Hawaiian shirt sample.
